

DE SERIES MIDDLE FREEZING AIR COOLER

Product Description

DE series air cooler can be used as evaporator in a small-size refrigerator. It can form complete set with opened compressor, semi hermetic compressor or hermetic compressor. DE series air cooler has three different sizes in one, two or three fans. It transmits heat quickly, lowers temperature of the refrigerator sharply and make the cold air in the refrigerator well-distributed, can be manufactured according to customer's special requirement.
