

## Suniso G range

**Description** Premium quality oil designed for use as refrigeration compressor lubricant, with traditional refrigerants.  
Product is very stable and essentially wax free.

**Application** Ideally suited for low temperature systems where evaporator temperatures are below -18° C. including residential and commercial refrigeration and air-conditioning systems.  
Can be used in virtually any installation regardless of compressor or evaporator temperatures.

**Properties**

- Cleaner operation of the compressor with fewer deposits and failures due to valve sticking.
- Excellent low temperature performance with no wax deposits to plug the system.
- Chemical stability to extend service life, reducing maintenance costs.

### Typical analysis:

	4.5G	5G
Density at 15°C	0.917	0.920
Viscosity at 40°C / cSt	68	100
Viscosity at 100°C / cSt	6.7	8.4
Flash point °C	170	182
Pour point °C	-24	-24
Floc point °C	-33	-33
Aniline point °C	82	82
Colour	2.0	L2.0
